Provides continuous steady feeding

Great Greening Element

## (P) Phosphate

### Features and Use

- Premium Palm and Ornamental is uniquely formulated with slow release nitrogen and slow release potash providing the industry's most complete top growth and root structure feeding.
- Extremely high amount of Magnesium to meet a palm's appetite for this element
- Enhanced with extra iron and manganese for vigorous growth and healthy color
- Minors package returns nutrients to plant for stronger root and cell structure
- Provides consistent release under a broad range of environmental conditions
- SW Florida soils are typically found to have high pH levels. Acid forming elements assist in balancing the natural growing conditions.
